

SPT Solvent Printer FY-3278F / 3208F

Features

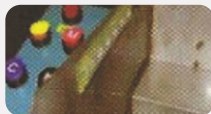

- 8 piece of drop on demand piezo printhead mounted in staggerd position to reach production speed at 114 sqm/hr;
- Comprehensive control platform, including printing control, heating control, platform air vacuum control;
- Individual colour purging system minimizes ink waste; LED light is mounted beside for ease of maintenance;
- Imported mute girder, extra strong metal beam, aluminium alloy platform, ensures high stability and high quality printing.
- Standard infrared heater and cooling fan drying system, for a fast drying of the printout;
- LED lighting system over the platform for ease of quality check of printout

Drop on demand piezo Head

Comprehensive control platform

Individual colour cleaning system

Imported mute girder

Model	FY-3278F	FY-3208F
Printhead	(SPT 510 - 50PL)	(SPT 510 - 35PL)
Number of printhead	4 or 8	
Max. Print width	3200mm	
Print speed*	Draft mode	161m ² /hr
	Production mode	114m ² /hr
	High resolution mode	91m ² /hr
	Max. resolution mode	71m ² /hr
Media	width	3,300mm
	Type	Frontlit, Backlit, Vinyl, Polyester, Window Film, Leather..
Heating system	Front/print/rear built-in heater, infrareds heating, cooling fan dry system, and standard printhead heating system	
Ink	Type	4 colors (C, Y, M, K), Solvent ink and eco-solvent ink
	Ink Supply	Ink detector, and supply on demand
Cleaning system	Positive pressure individual colour purging, manual capping, LED lighting	
Print Interface	USB2.0	
Power specification	Printer	AC 220V 50HZ 3A 660W
	Heater	AC 220V 50HZ 2200W
	Infrared heater	AC 220V 50HZ 15A 3300W
Environment	Temperatur : 20°C-28°C Humidity : 40%-70%	
RIPsoftware	Photoprint, Maintop, Ultraprint	
Dimension & Weight of Printer	L4490mm X W1000mm X H1270mm 430kg	

*The speed data are taken from the printer at fast speed. A difference of 10% may appear when running with different computers.
